The total area of all the forty-two States from which returns are received is therefore 133,019,314 acres. From this total deduction must be made for 61,609,882 acres of land which is held on jagir, muafi, and other privileged tenures, or which is unsurveyed. The net area actually covered by these statistics is, therefore, only 71,409,432 acres by professional survey, or 71,399,774 acres according to village papers, of which 5,899,244 acres are under forest, and 17,556,515 acres are either absolutely barren, or otherwise unfit for cultivation, or have been definitely assigned to purposes other than agriculture. Of the remaining 47,944,015 acres, 14,763,222 acres are available and fit for cultivation but not actually cultivated, and 5,826,066 acres are current fallows. The area actually cultivated, therefore, for which figures are given in these tables is 27,354,727 acres.

## TABLE No. 1—AREA

In this table should be entered the total area of each State, the areas for which statistics are and are not available being separately entered.

## GENERAL NOTES

*Column 2 (pages 9 and 10).—*The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding Departments in Southern India. In States where there has been no professional survey, the figures are based on the best information available.

*Column 3.—*In this column is deducted the entire area for which the statistics required for Tables Nos. 2 and 3 are not forthcoming in whole or in part. This area comprises chiefly estates held on privileged tenures which have not yet been surveyed and which possess at present no agency for the annual collection of Agricultural statistics. As surveys extend and the organisation of village statistical establishments develops, the area in this column is reduced, and that entered in the next columns (4 and 5) and dealt with in Tables Nos. 2 and 3 is correspondingly increased.

*Columns 4 and 5.—*Column 4 is a check on the accuracy of column 5. In the latter "village papers" means "the papers prepared by the village accountants." In States where no village papers exist, the figures in column 4 are repeated in column 5. The area in village papers may differ somewhat from that given by the Survey Department, (a) because, while the survey area is calculated in block, the area by village papers represents the added total of field and village areas; and (b) because the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and railroads is not always uniform in the two sets of returns.

(a) These are Khalsa or State lands only. The whole area of the State according to the Census of 1901 is 9,970,560 acres which is shown in table No. 1

TABLE No. 2—CLASSIFICATION OF AREA

The first part of this table deals with the classification of the area entered in column 5 of table No. 1, and gives the proportions (columns 2 and 3) withdrawn from cultivation by inclusion under forests or for some other reason, (column 4) cultivable land available but not yet taken up, (column 5) land occupied but not under crop during the year of report, (column 6) net area sown, that is, after deduction of the area cropped more than once in the year. The second part (columns 8 to 13) gives the area irrigated from various sources, and (columns 14 to 18) the distribution of the irrigated area under specified crops.

## GENERAL NOTES

*Column 2 (pages 14 and 16).*—The definition of the term "forests" is as follows:—"Any land classed or administered as forest under any legal enactment dealing with forests." Any cultivated areas existing within such forests may be excluded and entered in column 6 (net area cropped), an explanation being given in a note.

*Column 3* includes all land absolutely barren, and also all land covered by buildings, water, roads, or otherwise appropriated to uses other than agriculture.

*Column 4* includes groves not classed in the cropped area. Areas under bamboos and thatching grass, when not forming parts of forest areas, are included in this column.

*Columns 8 to 13 (pages 14 to 19)* state the area actually irrigated during the year, areas cropped more than once being counted once only.

*Columns 14 to 18* state the gross area of irrigated crops, areas cropped more than once being counted as separate areas for each crop. This accounts for the excess in some cases of the total area of crops irrigated (column 18) over the total area irrigated (column 13).

## PROVINCIAL NOTES

*Column 2 (page 20)* states the areas of State and district forests and of plantations.

*Column 3* includes not only lands absolutely unfit for cultivation, but also lands reserved for pasture, and plantations intended for public use and therefore left unassessed. A large portion of the pasture lands is fit for cultivation, and is given out for cultivation from time to time under special orders, such lands when given out for cultivation being transferred from columns 3 to 5 or 6 as the case may be. *Mysore.*

*Column 4* states unoccupied assessed waste.

*Column 5.*—There is no system of fallows, that is, lands are not systematically left uncultivated for the purpose of giving them rest. Individuals occupy large areas and pay full assessment thereon, leaving portions uncultivated, generally for the use of their cattle. For purposes of account the difference between the areas of the lands occupied by individuals and of those actually cultivated by them is taken as fallow. The lands occupied and assessed are sometimes unfit for cultivation, having been taken up on full assessment merely for use as pasture; but the exact area of all such lands cannot be ascertained, though it cannot be large.

*Column 2 (page 14)* states the area of reserved forests within surveyed villages.

*Cochin.*

*Column 2 (page 14)* states the areas of forest, left unassessed. Forests in this State having not been demarcated figures in columns 3 and 4 also include same forest areas. *Narsingarh*

*Column 4* states areas of land left uncultivated for over three years, of *bir* (grass lands) and of pasture lands.

*Column 5.*—The maximum period for which land thrown out of cultivation is reckoned as fallow is three years.

*Column 10 (page 17).*—"Tanks" includes canals and *bunds*.

*Alwar.*

*Column 2 (page 16)* states the preserved forests in the khalsa areas exclusive of the jagir *Kishangarh* and other alienated lands.

*Column 2 (page 38)* includes grass preserves (locally called the State *Rundhs*) and hills.

*Bharatpur.*

*Column 4* includes areas out of cultivation or which have not been cultivated for the last four years or upwards, but excludes State grass preserves (*Rundhs*).

*Column 5.*—The maximum period for which land thrown out of cultivation is reckoned as fallow is three years.

*Column 8* includes area irrigated from the Barota Bund, constructed by the State Public Works Department.

*Column 2 (page 38).*—Forests in certain parganas of the Kotah division, not having been separately surveyed, are included in columns 3 and 4. *Kotah.*

### TABLE No. 3—AREA UNDER CROPS

This table states the gross area sown with each crop, irrespective of irrigation and double cropping, the area under the latter being included in the statement but subtracted in column 41 (area cropped more than once). The area is that stated in column 6 of table No. 2.

---

#### GENERAL NOTES

In this table are entered the areas actually sown, whether the crop comes to maturity or not, except in cases when fields, owing to the failure of the first sowings, have been devoted to other crops : in such cases the area first sown is omitted.

In cases where two or more crops are grown together, an estimate is made of the area covered by each, and the areas so estimated are separately returned. The estimate is made by the village accountant, or is subsequently determined on formulæ prescribed by the provincial authorities.

*Columns 10, 15, 19, 22, 27, 34, 38 and 39 (pages 41—52).—*The selection of crops for inclusion in these columns is left to the local authorities.

---

#### PROVINCIAL NOTES

The areas under mixed crops are distinguished and entered under the respective crops of *Gwalior*, which they are composed.

*Column 14 (pages 58—60)* includes linseed and rapeseed for which separate statistics are not available.

---

The areas under mixed crops are distinguished so far as practicable and entered under the *Bharatpur*, respective crops of which they are composed.

---

The areas under mixed crops are shown under the principal crop, as it is not possible *Narsingarh*, to differentiate the areas of the respective crops.

**TABLE No. 4—LIVE-STOCK, PLOUGHS, AND CARTS.**

This table deals with agricultural stock.

---

**GENERAL NOTES.**

Animals in towns, cities, and cantonments are included where it is possible to secure their enumeration. Oxen and buffaloes not old enough for work or to produce young are classed as "young stock."

The figures generally are greatly lacking in accuracy.

---

**PROVINCIAL NOTES.**

Until 1898-99 statistics were collected every year by the shanbog and patel of each *Mysore*. village by enquiry or inspection. Since that year a census is taken every five years as nearly as possible simultaneously throughout the State. The last census was taken in September 1904. Stock in municipalities has been included since 1896-97.

---

A cattle census is taken by the patwaris every year after the kharif crop inspection in *Narsingarh* November. Animals in towns are included.

---

Animals in cities and towns are not included.

*Bikaner.*

---

A cattle census is taken every fourth year simultaneously throughout the State. The last *Alwar*. census was taken in December 1904. Animals in towns, cities, and cantonments are included.

---

A census of cattle is taken by the patwaris each year at the time of kharif crop inspection *Bharatpur*. in September. Animals in cities, towns, and military lines are included.

## TABLE No. 5—LAND REVENUE

This table is intended to indicate the relation between area, population, and land revenue, or, in other words, to exhibit the mean burden of the State assessment on the land assessed to it and on the community at large.

### GENERAL NOTES

The following rules were prescribed by the Government of India in 1893 for filling in this table:—

*Entry 1 in general table No. 5 (pages 100—101), column 2 in provincial tables Nos. 5 (A to H) (pages 104—111).*—The varieties of tenure entered should be included, as far as possible, under one or other of the following, namely, (1) raiyatwari, (2) zamindari and village communities (temporarily settled), (3) zamindari (permanently settled).

*Entry 2 (a) in general table (pages 100—101), column 3 (a) in provincial tables (pages 104—111).*—Areas held revenue-free or at privileged rates should be deducted, but the deduction need not be made where such areas are in any case less than an entire village, and where there is any difficulty in estimating the corresponding deduction to be made in the population head 10 (column 11). Areas should not be entered in this column merely because the assessment due from them has been suspended or remitted on account of short crops, or for other special reasons.

*Entry 3 in general table (pages 100—101), column 4 in provincial tables (pages 104—111).*—This column should be sub-divided into (a) total fully assessed area for which returns are available, and (b) area cultivated out of the area given in head (a). The latter head should be equal to the former after deducting current fallows and fully assessed waste.

*Entry 4 in general table (pages 100—101), column 5 in provincial tables (pages 104—111).*—Where land revenue includes the zamindar's share, the net demand should be entered, and the table should state the payments due by the zamindars to Government, not those by the raiyats to the zamindars. The actual realisable demand for the year should be entered, after excluding arrears for past years. Sums remitted on account of unoccupied lands, short crops, etc., should be excluded. This column should include all the heads classed as "Land Revenue" in the Civil Accounts.

*Entry 7 in general table (pages 102—103), column 8 in provincial tables (pages 104—111).*—As in entry 4 (column 5), but only ordinary land revenue on fully assessed areas is to be entered.

*Entry 8 in general table (pages 102—103), column 9 in provincial tables (pages 104—111).*—To be entry 7 (column 8), divided by entry 3 (a) [column 4 (a)].

*Entry 9 in general table (pages 102—103), column 10 in provincial tables (pages 104—111).*—To be entry 7 (column 8), divided by entry 3 (b) [column 4 (b)].

Areas under forest are included in entry 1 (column 2) under the prevailing tenure of the State.

The population in entry 5 (column 6) is that of the last general census.

### PROVINCIAL NOTES

*Column 3 (b)* states the area entered in columns 2 and 3 of table No. 2.

*Column 4 (a)* states Government occupied lands, including minor ināms in Government villages (columns 5 and 6 of table No. 2).

*Column 4 (b)* states the area actually sown (column 6 of table No. 2).

*Column 5* states the total realisable land revenue, including miscellaneous land revenue.

*Column 8* states the total raiyatwari demand, *plus* the quit-rent due on minor ināms in Government villages.

#### Gwalior.

*Column 4 (a)* includes area not fully assessed which cannot be separated from area fully assessed.

*Column 5* states "Land Revenue" as defined in the Civil Accounts, and includes cesses which cannot be separated from the land revenue.

*Column 8* states only ordinary land revenue with cesses.

*Column 11.*—Includes population of area not fully assessed which cannot be separated from that of fully assessed area.

#### Narsingarh.

*Item 1 (page 100)* states the net area by revenue survey as shown in column 4 of table No. 1.

*Item 2 (a)* includes forest areas (column 2 of table No. 2) and unculturable (column 3 of table No. 2) and culturable land not possessed by any cultivator.

*Item 2 (b)* states the area of minor muafis.

*Item 3 (b)* includes fallow lands left uncultivated for three years or less as full cultivation rate is assessed on them.

*Item 10 (page 102)* includes population of area not fully assessed which cannot be separated from that of fully assessed area.

Column 4 (b) (page 107) states not only the area actually under crops, but also fallow lands, *Marwar*, as revenue rates are assessed on the total cultivated area, including fallows. Hence the area stated in this column exceeds the total area in table No. 3.

Columns 5 and 6 relate only to Khalsa area, as statistics for these columns are not available for the whole area of the State.

---

Column 2 (page 109) states the net area by survey (column 4 of table No. 1).

*Tonk.*

---

The classes of tenure are zamindari and village communities, the former comprising *Alwar*, zamindari-bil-ijmal and the latter pattidari and bhaiyachara.

Item 1 (page 101) states the area by village papers (column 5 of table No. 1).

Item 2 (a) shows areas covered with forests (column 2 of table No. 2) which are wholly revenue-free.

---

The table is not prepared, the information not being available.

*Kishangarh.*

---

Column 1 (page 110).—The State area leased to cultivators for a fixed term is returned as *Bharatpur*. raiyatwari. The area leased out on condition of proprietary rights being given to lessees if they reclaimed land within a fixed term is returned as zamindari—temporarily settled; and the rest of the area (i.e., the area remaining after deduction of the raiyatwari and the temporarily-settled zamindari areas from the total area), is entered as zamindari—permanently settled.

Column 3 (a) includes muafi, chauth, and istimrar areas.

Column 6.—The population stated is that of the last census.

Column 11 shows the total population in cases where separate figures for areas fully, and not fully assessed are not available.

**TABLE No. 6—TRANSFERS OF LAND**

This table is intended to exhibit the number of voluntary and compulsory transfers of ownership of land or tenant right, and the area so transferred. Voluntary transfers mean transfers made by actual contract or gift, transfers by inheritance not being taken into account.

The table is at present prepared only by the States of Mysore, Barwani, and Alwar.

**GENERAL NOTES**

It is optional with the local authorities to enter or omit transfers of lands held by tenants.

The following rules have been prescribed for the preparation of this return :—

- (1) Changes of entry due to succession, partitions or simple mortgages, are not really transfers and should be excluded from the table, as also should redemptions of mortgage ;
- (2) All temporary transfers, such as leases, should also be excluded, but mortgage with possession should be treated as a transfer and entered in the table ;
- (3) All transfers made by order of a court should also be included in the table ;
- (4) The word " court " in the entry " by order of court " should be held to include a revenue court.

**PROVINCIAL NOTES***Mysore.*

Only permanent transfers are included as by sale or gift, in which the parties concerned apply for and obtain transfers of revenue registry in the village accounts from which the table is compiled. Thus, changes of registry under orders of civil and revenue courts, as well as those effected in consequence of the sale of land for arrears of Government revenue, are included.

*Alwar.*

Transfers by mortgage with possession, sale, and gift, both of proprietary and of occupancy rights, whether by order of court or by private contract, are shown in this table. Property confiscated by order of a criminal court, and holdings transferred by order of a civil or revenue court in satisfaction of money decrees or arrears of land revenue respectively are thus included.

*Jaipur.*

Transfers of property in land are not allowed or recognised in Jaipur, as all proprietary rights in land belong to the Darbar are thus included.
